Statement by Council President Tom Perez on Council Confirmation of Sandra Allen to WSSC Board

N

"I'm pleased the Council has confirmed Sandra Allen as a Montgomery County commissioner to the Washington Suburban Sanitary Commissioner, completing the process of bringing three new commissioners onto the WSSC board.

W

"We want a WSSC that pays close attention to its core mission – delivering safe, affordable water to the residents of Montgomery and Prince George's counties.

S

"The Council has played an important role in remaking WSSC over the past decade to make the agency leaner and more effective, while holding down rate increases that once reached double digits. And the Council has worked closely with the County Executive since February to foster more accountability in WSSC leadership.

R

"We have faith that our new three commissioners will put WSSC back on course. We appreciate the County Executive's work in giving us three highly-qualified people willing to roll up their sleeves and get to work."
